KITT

I model lingerie on the side for small companies once in awhile.

GUS

Really? And why the selling canned stuff.

KITT

Well the older you get the looks fade right so i figure since i want to make my own business i do the making and selling at flea markets and do modeling on the side till i get enough money to by my own little place and work from there.

GUS

Sounds right to me!

KITT

Yeah well some people would rather see me do other things in life but since i told you what i also do besides sell canned goods what about your job.

DR NORMAN

What you need to do Gus is shut your brain off once in awhile quit analyzing things and go with the flow.

GUS

Go with the flow what the hell are you talking about?

DR NORMAN

Exactly what i mean when you hang out with your friends and you do something out of the normal do you usually walk away or do you go.

(CONTINUED)

GUS

Yeah but that's different i know them!

DR NORMAN

Gus lets put it this way when you told off your boss and acted it out. You did everything that any normal person would love to do . But most of us stop and think before we act out. You well you just shut off your brain and went with what you thought would get you point out.

GUS

So?

DR NORMAN

Gus I'm going to tell your boss you need more time but you don't need to come here and tell me all what you have told me its a simple answer to what you need to do.

GUS

Which is?

DR NORMAN

Go with the flow and relax shut your mind off and go with the flow once in awhile .

Dr Norman walks away from Gus and sits down in his desk chair
